

FEPATEX

EYELETS | ACCESSORIES | TEXTILES | MACHINES

Get to know Fepatex

Fepatex is a leading manufacturer and supplier of high-quality eyelets, specialized accessories and smart solutions for the manufacturing industry. We deliver value across a wide spectrum of industries such as sign making, sailmaking, tents, sun protection, curtains, automotive, fashion and stationary.

We stand out by offering complete solutions that help our customers work more efficiently, improve ergonomics, and streamline their production. We design and (re-)build smart eyelet machines and set up workshops with confection tables, easy-to-use transport systems and effective (un) winding solutions. With custom engineering, we make sure every production environment is precisely customized to the specific needs of our customers.

What We Stand For

At Fepatex, your needs are at the center of everything we do. We believe innovation, quality and close collaboration are key to real progress. Our Profitex range is designed to help your company work smarter, faster, and more sustainably, so you can focus on what matters most.

With Fepatex, you get more than premium products. You benefit from our expertise, practical advice and reliable service. Our customers value our partnership, built on trust, flexibility and a shared commitment to results.

Wherever your business is, you can rely on Fepatex for forward and practical thinking solutions with a hands-on support to keep your production running smoothly and efficiently.

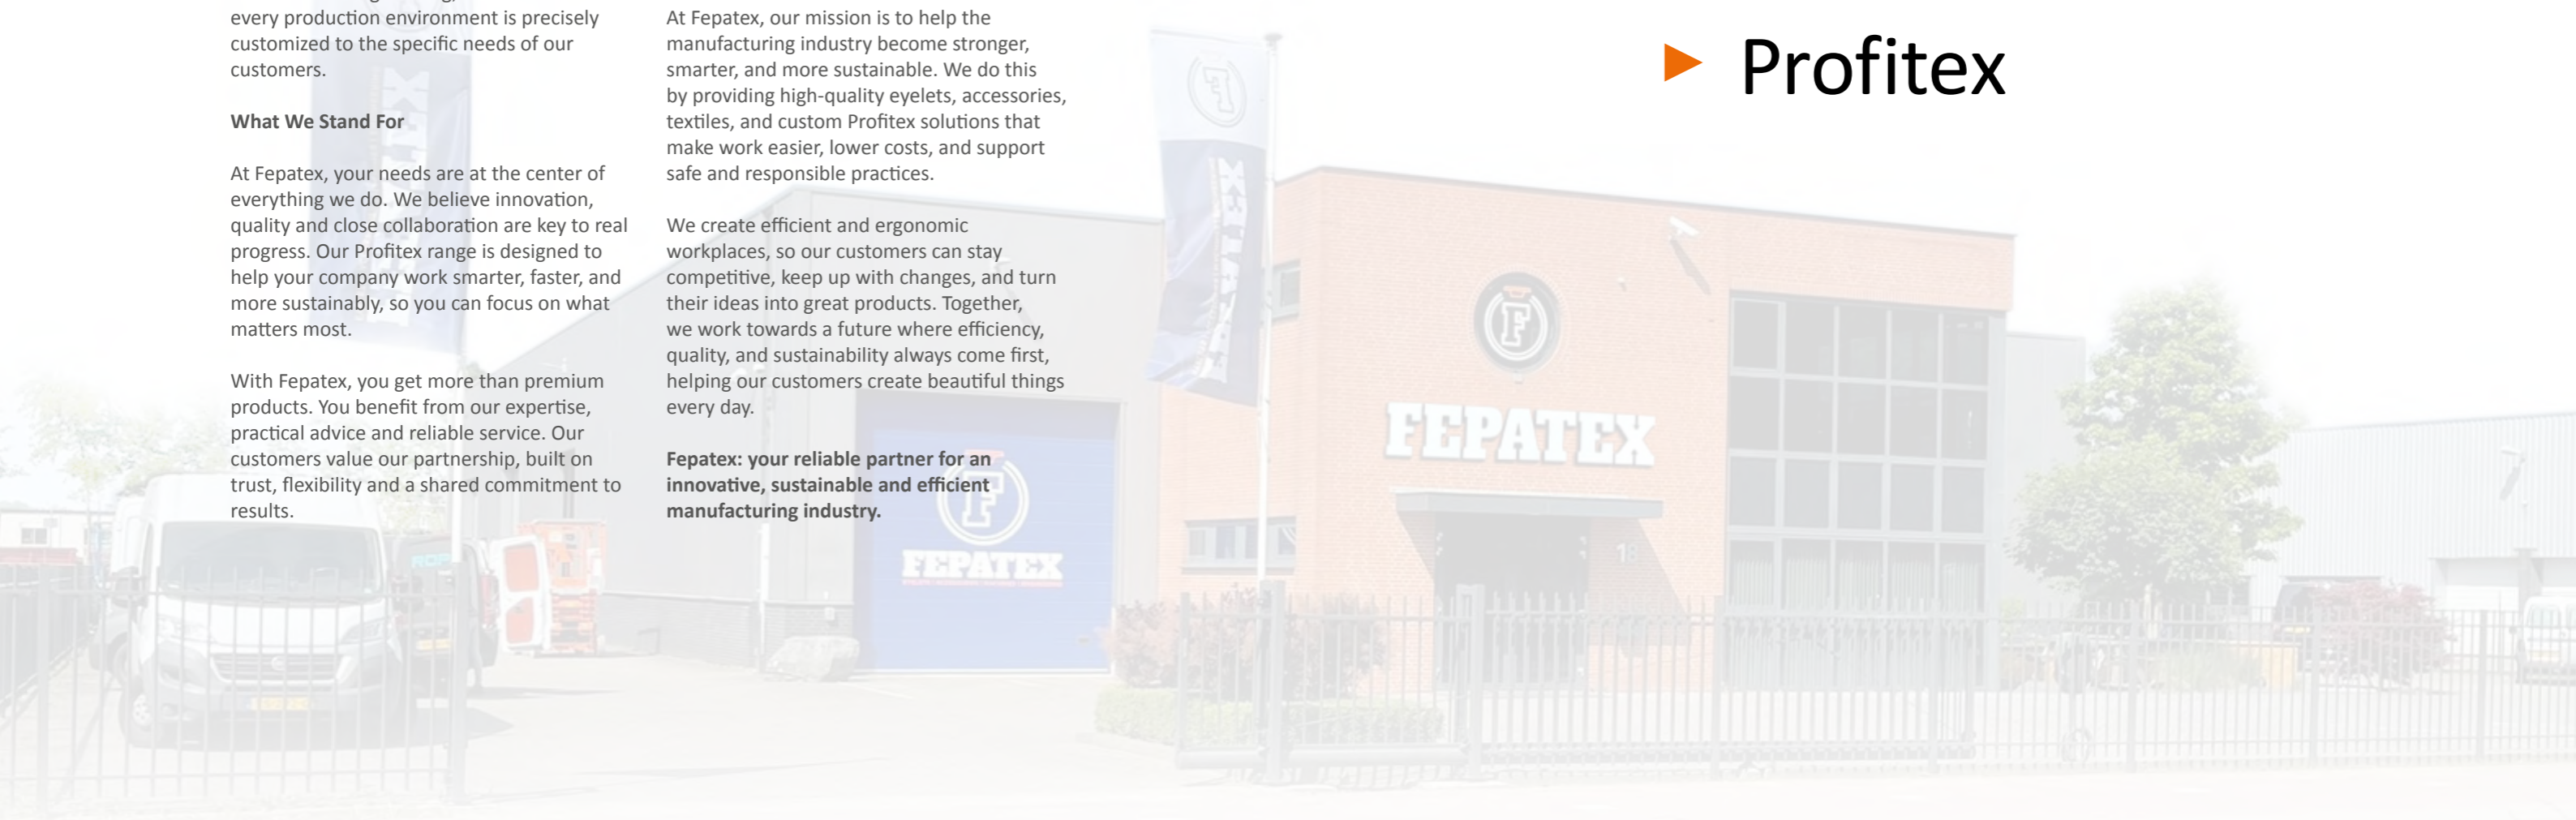

Our Mission

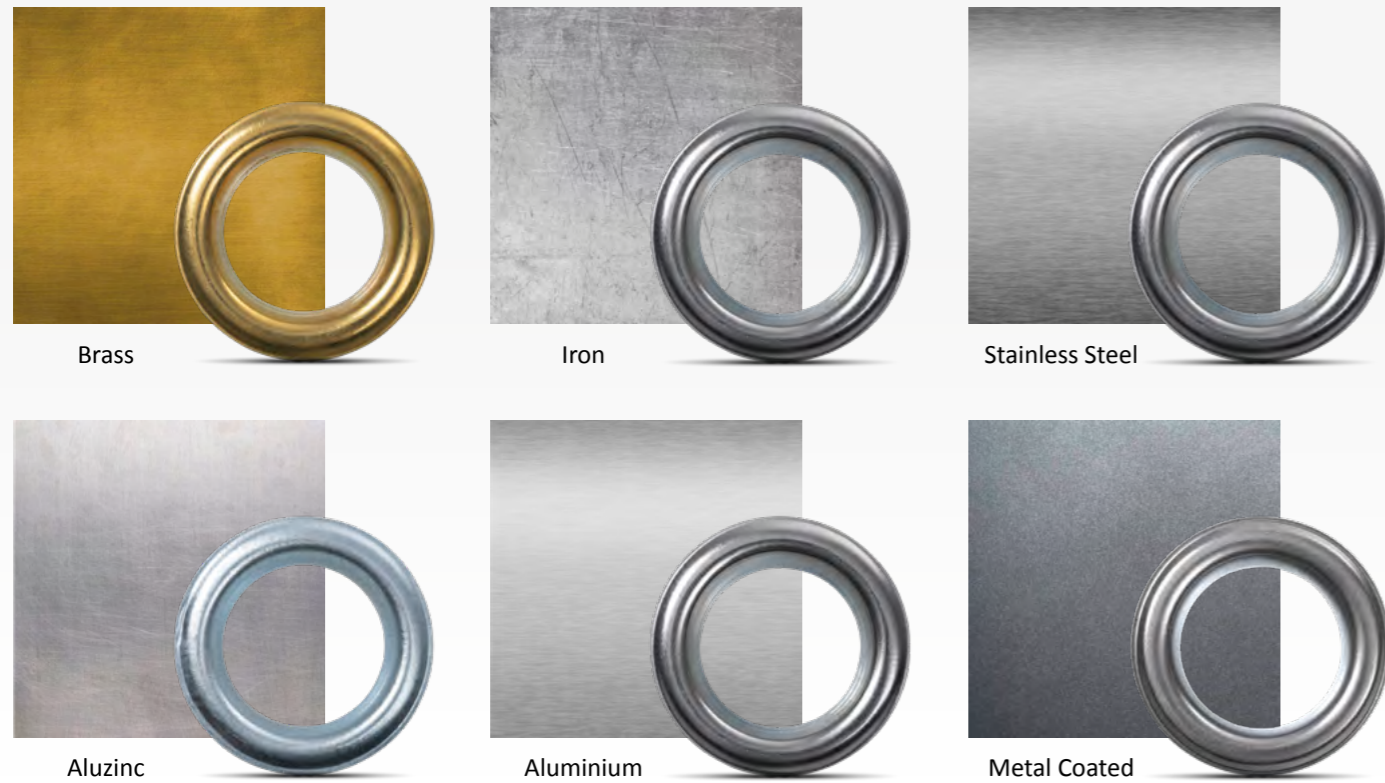

At Fepatex, our mission is to help the manufacturing industry become stronger, smarter, and more sustainable. We do this by providing high-quality eyelets, accessories, textiles, and custom Profitex solutions that make work easier, lower costs, and support safe and responsible practices.

We create efficient and ergonomic workplaces, so our customers can stay competitive, keep up with changes, and turn their ideas into great products. Together, we work towards a future where efficiency, quality, and sustainability always come first, helping our customers create beautiful things every day.

Fepatex: your reliable partner for an innovative, sustainable and efficient manufacturing industry.

Streamline your workflow with Profitex

With Profitex, we offer a complete range of work and confection tables, storage systems, and solutions for the transport of materials on the work floor.

Our practical and well-designed solutions connect the different processes within your production line, increase efficiency, and support ergonomic working.

Air tables & Confection tables

Profitex supplies advanced air tables and confection tables that optimize your production process. Thanks to a powerful airflow, our air tables make it easy to move heavy materials smoothly, which directly contributes to increased productivity.

The modular design of our confection and work tables offers maximum flexibility: the tables can be easily adapted to your specific requirements. With a wide range of accessories and expansion options, you always create an ergonomic and efficient working environment.

Easy storage systems

We understand how important order and overview are for an efficient workflow. That is why Profitex offers easy storage solutions such as roll racks and wall racks, specially developed for the easy storage of your media rolls.

Whether you work in the sign industry, textile sector, or any other industry where large rolls are processed, our systems optimize your workflow and make daily tasks lighter and more organized.

Internal transport

Profitex provides innovative solutions for the efficient and safe handling of media rolls. Whether it concerns transport within your workspace, lifting or hoisting heavy rolls, or the controlled unwinding and rewinding of materials, our products streamline your internal logistics.

Our ergonomic and user-friendly systems ensure a safe workplace, save time, and prevent unnecessary strain.

Discover how Profitex can improve your business processes and experience the difference in efficiency and convenience.

SERVICE & SUPPORT

At Fepatex, service comes first. We offer more than just high-quality products; you can rely on excellent service and expert support throughout the entire process.

Our experienced specialists handle the installation of your machines and Profitex setups on-site, so you can start working efficiently right away. After installation, we provide practical training to ensure your staff can operate our machines and systems optimally.

Should you unexpectedly encounter a problem, you can count on our 24/7 support. Our service team is available around the clock to get your production up and running again. This is possible by phone, remotely, or, if necessary, directly at your location.

In addition, we provide regular maintenance and offer fast, professional on-site service. This keeps your equipment in top condition and helps you avoid unexpected downtime.

When you choose Fepatex, you choose reliability, continuity, and personal support. Together, we ensure your production process always keeps running.

SOFTWARE SOLUTIONS

With the Fepatex Status & Counter System, you gain complete insight into your production process.

This smart software solution can be installed on any machine and gives you real-time access to key data, wherever you are.

- ▶ Efficiency
- ▶ Control
- ▶ Optimisation
- ▶ Custom solutions

Via a secure internet connection, you can easily log in and instantly see how many eyelets a machine has applied. This allows you to check at a glance how many eyelets each machine has placed, monitor employee productivity, and proactively schedule maintenance.

Thanks to the Status & Counter System, you optimize the use of your machines, increase efficiency, and prevent unnecessary downtime. This way, you always keep control over your production. Transparent, efficient, and future-oriented.

FINANCIAL SOLUTIONS

Flexible financial solutions for your investment

At Fepatex, we recognize that every business has its own requirements when investing in new machines and equipment.

To support your investment in our machines, Grommet Master systems, or Profitex solutions, we offer two flexible financial options:

1. All-In solution

With our All-In Solution, there is no separate payment for your machine or Profitex solution. Instead, the total cost is incorporated into the price of the eyelets you purchase from us through a "pay per eyelet" model. This ensures a seamless integration of product and equipment costs, simplifies budgeting, and removes the need for a large upfront investment. You simply order your eyelets as usual and have full use of the machine as long as you use our eyelets.

2. Leasing option

Alternatively, you can choose to lease our machines and solutions. Leasing allows you to spread your investment over a set period with fixed monthly payments. This option lets you benefit from the latest technology without tying up capital and provides predictable costs for your business.

If you would like to discuss which financial solution best suits your company, our team is ready to advise you and provide a tailor-made offer.
